

U Said

Lil Peep

Runnin' away from you takes time and pain
And I don't even want to
So I'm gettin' high all week without you
Popping pills, thinking about you
Runnin' away from you takes time and pain
And I don't even want to
So I'm gettin' high all week without you
Popping pills, thinking about you
I wish I didn't have a heart to love you
(I wish I didn't have a heart to love you)
I wish I didn't play a part to break you
(I wish I didn't play a part to break you)
I wish I didn't do a lot of the shit I do
(The shit I do)
And I wish you didn't too
Runnin' away from you takes time and pain
And I don't even want to
So I'm gettin' high all week without you
Popping pills, thinking about you

I wish I didn't have a heart to love you
(I wish I didn't have a heart to love you)
I wish I didn't play a part to break you
(I wish I didn't play a part to break you)
I wish I didn't do a lot of the shit I do
(The shit I do)
And I wish you didn't too
Sometimes life gets fucked up
That's why we get fucked up
I can still feel your touch
I still do those same drugs
Sometimes life gets fucked up
That's why we get fucked up
I can still feel your touch
I still do those same drugs
That we used to do
I was used to you
"What have you been through?"
She asked me
Every fucking kind of abuse
If you love me too
You would give me you

Lock me in your room
Don't tell me the truth
Everything you said
Stared inside my head
All the shit you said
All the blood I bled
Sometimes life gets fucked up
That's why we get fucked up
I can still feel your touch
I still do those same drugs
Sometimes life gets fucked up
That's why we get fucked up
I can still feel your touch
I still do those same drugs
