[Verse]

I'm hearing shooters loading pistols while I'm brushing my teeth (Dang!)

I get so many death threats it's getting normal to me

But I bend, don't break, I don't ask, just take

Black gloves, black tape and I don't play nor pray (Nope!)

Wake up and take a piss, I hear 'em sharpening knives

Main focus every day is make it out here alive (Lawd!)

Take a shower in my boots and go to sleep in my shoes

Last night, I had a dream some killers ran in my room (AH!)

Trying to be patient but nigga I can't wait (Nahh)

Only chance to kill my enemies and beat my case (Yahh)

So when they ask me how I feel about 'em, I can't say

You either with me, or against me or you in my way (Pussy!)

I got a pack of hungry wolves and if I don't feed em

Then they might turn on me, feel like I don't need em

I keep the best pedigree but hell, I don't breed em (Rrrrr!)

It's a lot of people scared of me and I can't blame 'em

They call me crazy so much, I think I'm starting to believe 'em

I did some things to some people that was downright evil

Is it karma coming back to me? So much drama

My own mama turned her back on me and that's my mama (Mama!)

I lost three people close to me in one summer

Ten years later still don't know shot up my Hummer (Hmmm)

But I bend I don't break, I don't ask I take (I take!)

Black gloves and black tape, nigga it's my first day

[Outro]

Wop!
