

# Young Forever (Radio Edit)

Michael Canitrot

Just turned 22  
Living like we on the run  
We can tell a story of our days before the sun Under a millions lights  
Over a thousand lifetimes  
I wanna be forever young  
Lets' catch all the stars together  
Cuz we won't be young forever we won't be young forever  
Lets' catch all the stars together  
Cuz we won't be young forever we won't be young forever  
Believing that we're dreaming and the world is not enough  
Oh Oh  
The promise that we're keeping  
'Cause we only live once  
Oh Oh  
Under a millions lights  
Over a thousand lifetimes and  
I wanna be forever young  
Lets' catch all the stars together  
Cuz we won't be young forever we won't be young forever  
Lets' catch all the stars together  
Under a millions lights  
Cuz we won't be young forever we won't be young forever  
Under a millions lights  
Over a thousand lifetimes we won't be young forever we won't be young forever  
Oh Oh
