

10 Victoria's Secret Models

MAX

[Verse 1]

Been on the L train in Chicago
Halloween day, you dress like Khaleesi
And some whiskey, said, "I don't drink, thanks"
Said "That's okay, I like your honesty"

[Pre-Chorus 1]

I don't know where this train's going
Red line, red lights if it breaks down
I wouldn't care now

[Chorus]

Even if 10 Victoria's Secret models
Walked in this room right now
I'd never take my eyes off you
I'd never take my eyes off you
And if I were 10 thousand miles
From this room right now
I'd never take my mind off you
I'd never take my mind off you

[Post-Chorus]

Time stops cold
Why would I ever waste my time with any other girls?
Why would I ever trust my secrets with somebody else?
With somebody else?
You make time stop cold
When you be looking at me like there ain't nobody else
And we can have this kind of room all to ourselves
I know I'll never take my eyes off you
I'll never take my eyes off you
I'll never take my eyes off you

[Verse 2]

I kissed you backstage, in Toronto
Three inches on me, with the heels on, but I don't care, baby
Had some herb on ya, said, "I don't smoke, thanks"
Maybe today I'll try it with you, babe

[Pre-Chorus 2]

I don't know where this thing's going
Red lights, red lips in the pool house
I'll make a new vow

[Chorus]

Even if 10 Victoria's Secret models
Walked in this room right now
I'd never take my eyes off you
I'd never take my eyes off you
And if I were 10 thousand miles
From this room right now
I'd never take my mind off you
I'd never take my mind off you

[Post-Chorus]

Time stops cold
Why would I ever waste my time with any other girls?
Why would I ever trust my secrets with somebody else?
With somebody else?
You make time stop cold
When you be looking at me like there ain't nobody else
And we can have this kind of room all to ourselves
I know I'll never take my eyes off you
I'll never take my eyes off you

[Bridge]

Even if 10 Victoria's Secret models
Walked in this room right now
I'd never take my eyes off you

[Post-Chorus]

Time stops cold
Why would I ever waste my time with any other girls?
Why would I ever trust my secrets with somebody else?
With somebody else?
You make time stop cold
When you be looking at me like there ain't nobody else
And we can have this kind of room all to ourselves
I know I'll never take my eyes off
