

# No Filter

Chris Brown

[Intro]

I swear I got no filter, no filter  
I swear I got no filter, no filter

[Verse 1]

This juice got me loose, ain't no use in holding  
Tell me something wrong?  
Slurring words, it's got a mind of its own  
When I'm on one, when I'm on one, I'm really on one, I'm really on one  
I got a limo round my waist, put that milkshake in my face  
Girl we fuck the night away  
Lick your lips, girl that's my taste  
When I'm on one, when I'm on one, I'm really on one, I'm really on one

[Chorus]

When I see that ooh I just might  
Why is it so wrong if it feels right?  
I swear I got no filter, no filter  
I swear I got no filter, no filter  
I'm out of fucks to give  
I got no filter, no filter  
I'm out of fucks to give  
Put you on now with no filter

You know I don't give a fuck, ha

[Verse 2]

King bed in my room tell me cause it can improve  
Let me get you slip and sliding  
Skinny dipping, scuba wilding  
When I'm on one, when I'm on one, I'm really on one, I'm really on one  
I see that donk, tasty romp  
And it make me wanna hump  
All night, all night, I just gotta go all night  
When I'm on one yeah, dripping on one, I'm really on one

[Chorus]

When I see that ooh I just might  
Why is it so wrong if it feels right?  
I swear I got no filter, no filter

I swear I got no filter, no filter  
I'm out of fucks to give  
I got no filter, no filter  
I'm out of fucks to give  
Put you on now with no filter

[Bridge]

Juice got me loose, ain't no use in holding  
Juice got me loose, but I gotta go all night  
When I'm on one, when I'm on one  
When I'm on one, when I'm on one

[Chorus]

When I see that ooh I just might  
Why is it so wrong if it feels right?  
I swear I got no filter, I wanna eat that pussy, no filter  
I swear I got no filter, no filter  
I'm out of fucks to give  
I got no filter, no filter  
I'm out of fucks to give  
Put you on now with no filter  
I got no filter

[Outro]

Ooh I just might  
Why is it so wrong if it feels right?  
Lick your lips, girl that's my taste  
When I'm on one
