

# Dancing With Nobody

## Surfaces

[Intro]

Sun in the sky, I feel like somebody  
Closing my eyes, dancing with nobody

[Chorus]

Sun in the sky, I feel like somebody  
Closing my eyes, dancing with nobody  
Clouds in my mind, headed for the lobby  
Closing my eyes, dancing with nobody

[Verse]

I remember days feeling like lost time  
Tripping over lines that I tried to rhyme  
In too deep, nearly lost my mind (Ooh, woah)  
Sooner or later they gon' call you back  
Domino effect and they all react  
Feeling like I'm living in rewind

[Refrain]

And I know things gon' change  
No, there ain't stoppin' fate  
All the colors arrange  
So I let it all fade  
And I know things gon' change  
No, there ain't stoppin' fate  
All the colors arrange  
So I let it all fade

[Chorus]

Sun in the sky, I feel like somebody  
Closing my eyes, dancing with nobody  
Clouds in my mind, headed for the lobby  
Closing my eyes, dancing with nobody

[Post-Chorus]

If you don't really care who sees  
Come on, won't you dance with me? Ayy  
If you don't really care who sees  
Come on, won't you dance with me?  
If you don't really care who sees

Come on, won't you dance with me? Ayy  
If you don't really care who sees  
Come on, won't you dance with me?

[Refrain]

And I know things gon' change  
No, there ain't stoppin' fate  
All the colors arrange  
So I let it all fade  
And I know things gon' change  
No, there ain't stoppin' fate  
All the colors arrange  
So I let it all fade

[Bridge]

Feel the light inside, don't let it go  
Feel the light inside, just let it show

[Chorus]

Sun in the sky, I feel like somebody  
Closing my eyes, dancing with nobody  
Clouds in my mind, headed for the lobby  
Closing my eyes, dancing with nobody, yeah
