

# Power

Ellie Goulding

[Verse 1]

Painted to pure perfection  
We had a real connection  
Bodies, aching, overtaken  
You kept me at a distance  
Not asking any questions  
Fingers, pressing, learning, lessons [Chorus]  
Beautiful lies on a Friday night  
Starting to wonder where we lost the magic  
Head in the clouds, talking so loud, all I hear is static  
I'm not a material girl, everything in your world just feels like plastic  
Wearing your crown, it's pulling me down  
You just want the power, you're not really down for love  
You just want the power

The power

[Verse 2]

No I'm not chasing paper and I'm not faking neither  
Take me higher or this will expire  
Your self obsessions boring, sorry if I'm ignoring  
Mindless actions, lead to destruction [Chorus]  
Beautiful lies on a Friday night  
Starting to wonder where we lost the magic  
Head in the clouds, talking so loud, all I hear is static  
I'm not a material girl, everything in your world just feels like plastic  
Wearing your crown, it's pulling me down  
You just want the power, you're not really down for love  
You just want the power

The power

[Bridge]

Everything you do is so cruel (Power)  
Taking me for a fool (Power)  
Making me need a new fix  
Making me worship you  
Everything you do is so cruel (Power)  
Taking me for a fool (Power)  
Making me need a new fix  
Making me worship you  
Oh, oh [Chorus]  
Beautiful lies on a Friday night  
Starting to wonder where we lost the magic  
Head in the clouds, talking so loud, all I hear is static  
I'm not a material girl, everything in your world just feels like plastic

Wearing your crown, it's pulling me down  
You just want the power, you're not really down for love  
You just want the power  
The power
