

# Alternate State (feat. Róisín Murphy)

## Hot Natured

Before it's too late and I hesitate  
Remember I came  
From a small town I guess I'd have to say  
I'm still running away  
From the old mentality  
From a mode of thinking You opened my eyes, opened my mind  
Got a new point of view, now baby  
And it's all about you.  
All the things I've always thought  
Have all come to naught  
Got a new perception, yeah  
Almost a new reflection.  
I used to be afraid to fly  
I'm still a little scared of darkness I used to be afraid to fly  
I'm still a little scared of darkness Just follow the sound, guess I got around  
On my own initiative,  
But there was something missing. An alternate state, alternative ways  
Uncovering new sensation, yeah  
Discover my true potential Opening doors, breaking down walls  
'Till there's no glass ceiling on  
It's the only feeling.  
Got out of there fast  
I ran from the past  
Some pieces of me got left behind  
And something will always be there I used to be afraid to fly  
I'm still a little scared of darkness.
