

The Good Lord and the Man

John Rich

Well, he was one of the millions
Who signed up to defend us long ago in 1941
When they sucker punched us in Pearl Harbor
He fought under Macarthur seventeen with an army Thompson gun
Well, he stormed a lot of
beaches slept in jungles with the leaches
He saw things young man should never see
And when they shot him in the shoulder
He got back up and he marched over
Left a lot of brothers dead in kawagalie
If it wasn't for the good Lord and the man
There wouldn't be a breath of freedom in this land
And I see people on my TV taking shots at uncle Sam
I hope they always remember why they can
'Cause we'd all be speakin' German
Livin' under the flag of Japan
If it wasn't for the good Lord and the man
If it wasn't for the good Lord and the man
Well, I'm the grandson of a soldier
And I'd fight the whole world over
If duty called and freedom's on the line
But thanks to the greatest generation
And the ones still fighting for our nation
I've never had to kill for my way of life
If it wasn't for the good Lord and the man
There wouldn't be a breath of freedom in this land
And I see people on my TV taking shots at uncle Sam
I hope they always remember why they can
'Cause we'd all be speakin' German
Livin' under flag of Japan
If it wasn't for the good Lord and the man
If it wasn't for the good Lord and the man
There wouldn't be a breath of freedom in this land
And I see people on my TV taking shots at uncle Sam
I hope they always remember why they can
'Cause we'd all be speakin' German
Livin' under flag of Japan
If it wasn't for the good Lord and the man
If it wasn't for the good Lord and the man
