

# I'll Make Cereal

## Cavetown

[Verse 1]

Fall into my mattress endlessly  
I need to run, just let me sleep  
Then the nightmares come that feel so real  
Seems the darkness weighs it down  
The later on, the more it pounds  
And in the morning I'll make cereal

[Verse 2]

The world's coming to an end  
What's the point if we can't be friends?  
Pick me up from dungeon's ferris wheel  
Getting lost inside my head  
Not too long 'til we're all dead  
And in the morning I'll make cereal

[Bridge]

So what'll it be  
Cornflakes or toast?  
Pills or a dose of radiation?  
Armageddon is far too close  
She visits me every night  
(At least it makes good conversation)

[Verse 3]

Marine comes before ET  
Maybe space is under the sea  
And the sky is full of coral reefs  
UFOs swim in the dark  
We're fixated on the sharks  
Slicing fins and plucking their teeth

[Verse 4]

All of this it comes to me  
In the deep corners of my sleep  
And the bed frame starts to creak and reel  
Fish leave poison in my brain  
Starts to turn me insane  
But in the morning I'll make cereal

[Outro]

As always I'll make cereal  
As always I'll make my favourite cereal
