

# Other Half of Me

## Jah Cure

...  
Baby there's something about your smile  
Take me to heaven can't come down  
Hooked on your love like a powerful drug  
So addicted to you!  
With every step we take  
And I love the love the love we make  
I'm so blessed to share my life with you  
When I was low, didn't believe I'd climb higher  
Though seasons change, only love will remain  
When we grow old sippin' on tea by the fire  
I just wanna see the other half of me, yea  
Its to the point where I can't see life without you  
I don't want to  
I see a better me every time i'm around you  
My arms are open wide  
When I was low didn't believe I'd climb higher  
Though seasons change, only love will remain  
When we grow old sippin on tea by the fire  
I just wanna see the other half of me, yea  
You've become a part of me  
I am you and you are me  
I can't walk this road unless you're here  
When I think i've seen it all you find a way to love me more  
When I was love didn't believe i'd climb higher  
Though seasons change only love will remain  
When we grow old sippin on tea by the fire  
I just wanna see the other half of me, yea
