

# Ice Princess

Azealia Banks

I'm so cold I'm dripping icicles  
I go and take your man that nigga Might miss you  
Spent his whole commission on my neck and ear  
To stand around me need to have ya winter gear  
Pay me coats and benz's and that berg-ice  
That's why I do not feel these bitches, Frostbite  
Grown money, ever since a youngin' made my own money  
You broke honey, and they call me Banks, cause I can loan money  
Colder than December, my diamonds on Anna Wintour  
So that's fly ice in my life  
I don't see no limits so i strive and I shine twice  
I ride around and get it, just listen for a minute  
That was only one thought let me finish...  
Competition Imma beat 'em so relentless  
Ima be legendary when I end this  
They rise when I arrive in this  
"All Hail The Supreme Ice Princess!"  
Tell the carriage, hurry up and come and get me  
Tell the haters run along you can miss me  
Hollywood you can go and A-list me.  
I like a shot of hard whiskey. Feelin' it, I'm feeling a change  
I'm feeling it, in the air  
I'm feelin' it, I'm feeling a change  
I'm feeling it, in the air  
So let me in!  
Her motives is frozen  
Giving chill pill to them polars  
Corrosive, the coldest, city is a tundra  
Stay focused, No wonder, - Frigid princess come from  
Cold cash and them ice chunks, Stone frost in my Celine pumps  
Rolls-Royce, snow white-ups  
Colder than December, diamonds on Anna Wintour  
These glaciers glamour and glisten  
Antarctic, it's like a blizzard, my jargon (is)  
"fuck you i'm frigid"  
Cool it down or get avalanched  
Igloo'd cold-cased and bodied  
And ice-cubed up in the lobby  
Bitch, white fox, peep the opulence...  
Ice box the coolest confidence  
Isis-Queen, the Icy-Witch  
Winterfresh in that whitey-Benz

Shimmering Aphrodite  
Winter-wonderland body so frosty in that bugatti  
Porcelain-Snowflakin' Papi, popsicle in ya pocket...  
I'm polarizing ya profits  
I freeze 'em, flip 'em, and rock it  
Cocoa a-la mode, who's frozen from head to toe  
Ice-grillin' the status quo  
Cold-killer so now you know
