

# Zero

## Yeah Yeah Yeahs

[Verse 1]

Shake it like a ladder to the sun  
Makes me feel like a madman on the run  
Find me never, never far gone  
So get your leather, leather, leather on-on-on-on

[Chorus]

You're a zero  
What's your name?  
No one's gonna ask you  
Better find out where they want you to go  
Try and hit the spot  
Get to know it in the dark  
Get to know it whether you're a crime, crime, crime of love  
Can you climb, climb, climb higher?

[Verse 2]

Shake it like a ladder to the sun  
Makes me feel like a madman on the run  
Know you're never, never far gone  
So get your leather, leather, leather on-on-on-on-on

[Chorus]

You're a zero  
What's your name?  
No one's gonna ask you  
Better find out where they want you to go  
Try and hit the spot  
Get to know it in the dark  
Get to know it whether you're a crime, crime, crime of love  
Can you climb, climb, climb higher?

[Bridge]

Was it the cure?  
Shell-shock  
Was it the cure?  
Hope not  
Was it the cure?  
Shell-shock  
Was it the cure?

What's your name?

[Chorus]

You're a zero

What's your name?

No one's gonna ask you

Better find out where they want you to go

Try and hit the spot

Get to know it in the dark

Get to know it whether you're a crime, crime, crime of love

Can you climb, climb, climb higher?

[Outro]

Was it the cure?

Shell-shock

Was it the cure?

Hope not

Was it the cure?

Shell-shock

Was it the cure?

Hope not

What's your name?

What's your name?

What's your name?

What's your name?

What's your name?

What's your name?

What's your name?
