

# Fire Meet Gasoline

Sia

[Verse 1]

It's dangerous to fall in love, but I wanna burn with you tonight

Hurt me

There's two of us, we're certain with desire

The pleasure's pain and fire burn me

[Pre-Chorus]

So come on, I'll take you on, take you on

I ache for love, ache for us

Why don't you come, don't you come a little closer?

So come on now, strike the match, strike the match now

A perfect match, perfect, somehow

We were meant for one another, come a little closer

[Chorus]

Flame you came to me, fire meet gasoline

Fire meet gasoline, I'm burnin' alive

I can barely breathe, when you're here loving me

Fire meet gasoline, fire meet gasoline

I got all I need, when you came after me

Fire meet gasoline, I'm burnin' alive

I can barely breathe, when you're here loving me

Fire meet gasoline, fire meet gasoline

Fire meet gasoline burn with me tonight

[Verse 2]

And we will fly like smoke darkenin' the skies

I'm Eve, I wanna try, take a bite

[Pre-Chorus Variation]

So come on now, strike the match, strike the match now

We're a perfect match, perfect, somehow

We were meant for one another, come a little closer

[Chorus]

Flame you came to me, fire meet gasoline

Fire meet gasoline, I'm burnin' alive

I can barely breathe, when you're here loving me

Fire meet gasoline, fire meet gasoline

I got all I need, when you came back to me

Fire meet gasoline, I'm burnin' alive  
And I can barely breathe, when you're here loving me  
Fire meet gasoline, burn with me tonight

[Bridge]

But it's a bad bet, certain death  
But I want what I want and I got to get it  
When the fire dies, darkened skies  
Hot ash, dead match, only smoke is left  
But it's a bad bet, certain death  
But I want what I want and I got to get it  
When the fire dies, darkened the skies  
Hot ash, dead match, only smoke is left

[Chorus]

Flame you came to me, fire meet gasoline  
Fire meet gasoline, I'm burnin' alive  
I can barely breathe, when you're here loving me  
Fire meet gasoline, fire meet gasoline  
I got all I need, when you came back to me  
Fire meet gasoline, I'm burnin' alive  
And I can barely breathe, when you're here loving me  
Fire meet gasoline, burn with me tonight

[Outro]

Burn with me tonight  
Burn with me tonight  
Burn with me tonight
