

Life Ahead of Me (feat. Rapsody)

Talib Kweli & 9th Wonder

I got my whole life ahead of me This path got hurdles
Smoke rappers to make up for the herbal
It's quite fertile after 4 months of murder
I push em to the edge, now they sanity is sorta
Missin', I guess I'm that gifted
Why I never celebrated damn Christmas
I been the rap game wishlist
The morticians boomin' business
These bitches till bitchin'
Sad day for you, there's no love?
Here, better ask grandma, she can pray for you
You just pray to me
I just react like 8 Uzi's, blow holes in your plan like (?)
Love the (?) in Sicily
I pray I'm just as strong as on when I turn 60
Hope my health good and I ain't sick, B
Pray with news, no other icons
Like we lost Whitney, and maybe (?)
You'll get my age right
Maybe one of these months, I'll sleep all night And if I don't, it's alright I got my whole life
ahead of me
I know this world ain't heavenly
I'm just following this little recipe
I got my whole life ahead of me I got my whole life ahead of me
I got my whole life ahead of me I know this world ain't heavenly
I'm just following this lil' recipe Stack chips like the treasury
Nigga swear they ballin' like they 7 feet But John Lennon, just let it be
(I got my whole life ahead of me)
I judge a man by his enemies
Rapsody my sister, 9th my brother
Like the (?)
Indie 5, the best emcee's of recent memory
I'm a connector, that's my speciality I'm a plug with the drugs like the (?)
They try to kill the poor, I got the remedy
That's why I fought the (?) damn Kennedy's
They try to pull a rug right from under you
Buggin' you like a centipede
Even tho it tie the room together nicely like a centerpiece
Try to pretend you're passive but actually act aggressively
Try to take away my energy
Save it like Dennis Eckersley
These niggas thirsty as a speech was in Tennessee (?)

You girl messaged me, calling me bae like the (?)
 But never stop testing me
 But their chances of besting of me is futile as looking for some honour in (?)
 Black Star my body of work is heavenly
 Death tries it's best to keep up
 Cause life's ahead of me I got my whole life ahead of me
 I know this world ain't heavenly
 I'm just following this little recipe
 I got my whole life ahead of me I got my whole life ahead of me
 I got my whole life ahead of me
 I know this world ain't heavenly I'm just following this lil' recipe How slow can you be, I been
 killin' annually
 I'm half beast machine
 I guess Hills or Jeans make a difference If they listen or pay attention, I'm in adventure, fuck
 you niggas
 If I had a penis, your penis would be hard as a brick is
 Say I'm king on some rap shit
 But my gender got them tender
 I recognize y'all lies
 And understand it ain't even, ain't no 5+5's
 Ain't no more cries like Mary Blige and them
 Pressure part of the process, like all them diamonds been
 So what I'm finding is (?)
 And break promises
 I never like a female rapper that ain't honest, if it now
 If they never saw my profile, they probably picture me with a image
 That do resemble (?)
 Dissing like (?) cymbals
 Make much noise
 And rejoice for Cristal
 We found the next boy
 But not really, though
 I'm still killin' them easy, like eenie miny moe I got my whole life ahead of me
 I know this world ain't heavenly
 I'm just following this little recipe
 I got my whole life ahead of me
 I got my whole life ahead of me
 I got my whole life ahead of me
 I know this world ain't heavenly
 I'm just following this lil' recipe
