

So Hot (feat. Twista)

Charlie Wilson

[Charlie Wilson + Twista]

So hot

Charlie Wilson (Yo)

Your boy Twista (So hot)

[Twista]

Now where the mama at

Let me look at your body at

I love them ladies with fatties

And you've got a lot of that

Are you good to do the jam

Or make me catch a heart attack

Sister can I get with you

Can you win Twista and Charlie's mind

Girl, don't wanna be cocky

Let me show you where the party's at

[Charlie]

I see you mixing through that boo (At the party)

All the fellas are checking (A sexy party)

Shorty, you've got just a pretty face

And a player like me needs sip

And have a drink boo

I'm hallucinating, I'm seeing you (Looking right back)

I like the way that she's dancing (She's looking sexy)

And a brother like me could spit or taste

And my brother put this big old smile on my face, oh

She's so hot, she makes you want to say (Woah)

On the road with you, shorty let's go (Oh)

Onto the other mess

Don't hurt nobody, let me work with that (Ooh)

She's so hot, she makes you want to say (Woah)

On the road with you, shorty let's go (Oh)

Onto the other mess

Don't hurt nobody, let me work with that (Yeah)

They claim my stuff won't be back in (To make it happen)

You've got to want it like I do (Nothing at it)

I figured it won't be home to be convinced

Cause a dime like you on my arm makes perfect sense

Touching in the party

Want to leave the party with you (Let's leave the party baby)

Sexy little hottie, tell me what you want to do

With me

She's so hot, she makes you want to say (Woah)

On the road with you, shorty let's go (Oh)

Onto the other mess

Don't hurt nobody, let me work with that (Woah)

She's so hot, she makes you want to say (Woah)

On the road with you, shorty let's go (Oh)

Onto the other mess

Don't hurt nobody, let me work with that (Yeah)

[Twista]

Let me get it with that

Twista, what should I call her?

Roll through the hood in a Bentley with a baller

Take a trip to the Sybaris

And make you cut your phone off

Put the music on, get you in the bed

And pull your thong off

Big money black man

I must see not bad

Falling up out of the black band

Pumping me some Gap Band

Don't leave me happy

Till you're through with the crew

Let me see you break it down

Let me hit it with the floor

And make you do what it do

So what's up shorty, won't you jug?

[Charlie]

(Come on, work that body)

You know what I'm looking for

So baby just come on

(Don't hurt nobody)

You've got my attention

I'm watching you work it baby

(Come on, work that body)

You know what I'm looking for

So baby just come on

(Don't hurt nobody)

You're so hot

You look fine, girl

She's so hot, she makes you want to say (Woah)
On the road with you, shorty let's go (Oh)
Onto the other mess
Don't hurt nobody, let me work with that (Woah)

She's so hot, she makes you want to say (Woah)
On the road with you, shorty let's go (Oh)
Onto the other mess
Don't hurt nobody, let me work with that (Yeah)

She's so hot, she makes you want to say (Hop in the ride with me)
On the road with you, shorty let's go (Oh)
Onto the other mess (Onto the other mess)
Don't hurt nobody, let me work with that (Don't hurt nobody, Come on)

She's so hot, she makes you want to say (Oh-oh-oh)
On the road with you, shorty let's go
Onto the other mess
Don't hurt nobody, let me work with that

She's so hot (Hop in the ride with me)
On the road with you (Let's go back to the spot with me)
And sip on some Hennessy
Don't hurt nobody, let me work with that

She's so hot (Hop in the ride with me)
On the road with you (Come on back to the spot with me)
And sip on some Hennessy
Don't hurt nobody, let me work with that
