

# All Together

## Illenium & OEKIIN

[Verse 1]

You can go ahead and judge me  
Just? so you can say you're right  
You? can try to rise above me  
But what's underneath is your own lies  
You can choose to understand me  
Or? refuse to see the other side  
Go? and call me the enemy  
While I'm only trying to save your life

[Pre-Chorus]

When? a war with each other  
Is a war against ourselves  
We both lose when we start the fight, oh no

[Chorus]

No proof of God above me  
I? only know what I see  
And we can only help ourselves  
All together

[Drop]

All together  
All together  
All together  
All together

[Verse 2]

You can try to separate us  
Drow a border with your mind  
You can say that we are different  
When we want the same to survive  
When religion and leaders still remain in between us  
We all lose if we can't align, oh no

[Chorus]

No proof of God above me  
I only know what I see  
And we can only help ourselves

All together

[Drop]

All together

All together

All together

All together

We can only help ourselves

[Bridge]

When a war with each other

Is a war against ourselves

We both lose when we start the fight, oh no

[Chorus]

No proof of God above me

I only know what I see

And we can only help ourselves

All together

[Drop]

All together

All together

And we can only help ourselves

All together

All together

All together

All together

All together
