

Lil Weight

King George

Tell her back that thing on up
A little weight don't bother me
Don't gotta be too slim
If you really wanna do some
Ain't gotta be too slim
If you really wanna do some
Girl I like a little kush (I like a little kush)
Or whatever I'm pushin' (or whatever I'm pushin')
Good lord
I tell her back the thing on up
A little weight don't bother me (don't bother me)
Girl I don't see nothing wrong (nothing wrong)
With all that you got goin' on
Good lord
I tell her back the thing on up
A little weight don't bother me
Girl I like a little kush (I like a little kush)
Or whatever I'm pushin' (or whatever I'm pushin')
Good lord
I tell her back the thing on up
A little weight don't bother me (don't bother me)
Girl I don't see nothing wrong (nothing wrong)
With all that you got goin' on
Good God
I tell her back the thing on up
A little weight don't bother me
Ain't nothing like a big fine woman
'Cause she comin' with a whole lotta lovin'
I tell her back the thing on up
A little weight don't bother me (weight don't bother me)
Come here girl let me show you how I do
When I'm in it I'ma hold on to it
I tell her back the thing on up
A little weight don't bother me (weight don't bother me)
Said I love bein' out on the road (yes sir)
Seen a sign sayin', "Oversized load" (good lord)
I tell her back the thing on up
A little weight don't bother me (don't bother me)
Big girl got it goin' on (goin' on)
Got a nut that lasts all night long
I tell her back the thing on up
A little weight don't bother me
Girl I like a little kush (I like a little kush)

Or whatever I'm pushin' (or whatever I'm pushin')
Good lord
I tell her back the thing on up
A little weight don't bother me (don't bother me)
Girl I don't see nothing wrong (nothing wrong)
With all that you got goin' on
I tell her back the thing on up
A little weight don't bother me
Girl I like a little kush (I like a little kush)
Or whatever I'm pushin' (or whatever I'm pushin')

Good lord
I tell her back the thing on up
A little weight don't bother me (don't bother me)
Girl I don't see nothing wrong (nothing wrong)
With all that you got goin' on
Good God
I tell her back the thing on up
A little weight don't bother me
Here we go say
P-P-P

That's the way that booty sound when she back it up (back that ass up)
Oh-wee, watch out, make room
Big mama got ass like a truck
Say P-P-P

That's the way that booty sound when she back it up (back that ass up)
Oh-wee, watch out, make room
Big mama got ass like a truck
Say big girl (big girl)
Back it up
Come on big girl
Back it up
Come on big girl
Back it up
A little weight don't bother me
Say big girl (big girl)
Back it up
Big girl
Back it up
Come on big girl
Back it up

A little weight don't bother me
Girl I like a little kush (I like a little kush)
Or whatever I'm pushin' (or whatever I'm pushin')
I tell her back the thing on up
A little weight don't bother me (don't bother me)
Girl I don't see nothing wrong (nothing wrong)
With all that you got goin' on
I tell her back the thing on up
A little weight don't bother me

Girl I like a little kush (I like a little kush)
Or whatever I'm pushin' (or whatever I'm pushin')
Good lord

I tell her back the thing on up
A little weight don't bother me (weight don't bother me)
Girl I don't see nothing wrong (nothing wrong)
With all that you got goin' on
Oh lord

I tell her back the thing on up
A little weight don't bother me

Say big girl (big girl)

Back it up

Come on big girl

Back it up

Come on big girl

Back it up

A little weight don't bother me

Say big girl (big girl)

Back it up

Ooh big girl

Back it up

Come on big girl

Back it up

A little weight don't bother me
Said a little weight don't bother me

A little weight don't bother me

Said a little weight don't bother me

A little weight don't bother me

Said I tried it and I know it

A little weight don't bother me

Oh a little weight don't bother me

No, a little weight don't bother me

You ought to try it for yourself

I bet you won't meet nobody else

Don't gotta be too slim

If you really wanna do some

Ain't gotta be too slim

If you really wanna do some
