

# Fall in Love

JUMEX

[Intro]

Woo, woah-oh

Yeah, I hope you're okay

Bring you roses, please take

It's all for you, I love?you?too

Let's fall in?love and inside the room

[Pre-Chorus]

Bringin' down?with the shivers

Numb me like pain, painkillers

Beautiful flows, like the river

Making sure my love delivers

[Chorus]

Well bring your love letters please

You remind me that you need me

I don't wanna mistake cause all the things you mislead

I go take the next plane

Don't replace, don't go away

[Verse 1]

Yo' is this where you are?

There's only-, where have you been?

Just make your move, I'm waiting too

Just fall in love inside my room

How long will you miss me?

I don't feel like living

Holding on when you're forgetting

That my body still existing

[Pre-Chorus]

Bringin' down with the shivers

Numb me like pain, painkillers

Beautiful flows, like the river

Making sure my love delivers

[Chorus]

Well bring your love letters please

You remind me that you need me

I don't wanna mistake cause all the things you mislead

I go take the next plane

Don't replace, don't go away

[Verse 2]

Can you fall back in love with me?

Chemically addicting

Baby we're something, I was so lost then

I've been overthinking all week

Passin' time smokin' weed

Baby, you're luscious-

[Pre-Chorus]

Bringin' down with the shivers

Numb me like pain, painkillers

Beautiful flows, like the river

Making sure my love delivers

[Chorus]

Well bring your love letters please

You remind me that you need me

I don't wanna mistake cause all the things you mislead

I go take the next plane

Don't replace, don't go away

[Outro]

Love letters please

You remind me that you need me

I don't wanna mistake cause all the things you mislead

I go take the next plane

Don't replace, don't go away
