

Miracle Man

Oliver Tree

Your whole life, "I tried and now I'm getting older"
Your whole life, "I tried and now I'm getting closer" Tell me what you want was it enough for
you?
Fucking up your life was it enough for you? No way
Tell me what you want is it enough for you?
Fucking up your life was it enough for you? No way No, it's what you wanted though
Everything you told me, I don't need to know
It's what you want to do
Everything you ever could of wanted to do
Don't say it's what you need, I'd say it's what you wanted
Don't say it's what you need, I'd say it's what you wanted Your whole life, I tried, and now I'm
getting older
Your whole life, I tried, and now I'm getting closer Tell me what you want is it enough for you?
Fucking up your life was it enough for you? No way
Tell me what you want is it enough for you?
Fucking up your life was it enough for you? No way
Here we go, barely though
I'm not searching for a miracle
Here we go, barely though
I'm not searching for a miracle
Here we go, barely though
I'm not searching for a miracle
Here we go, barely though
I'm not searching for a miracle Your whole life, "I tried and now I'm getting older"
Your whole life, "I tried and now I'm getting closer"
