

I Thought You Knew

[Keith Urban](#)

I thought You knew, guess I assumed too much
I don't know how, but now we're so far out of touch
And I never planned, to so misunderstand
But what you needed, you never asked me to give
And I swear as I live...I thought you knew my heart was yours
And that we were so together
That we, would always be
I don't believe, you leavin' me is the answer
I'm not askin' you to let me rush back in and fail again
I'm askin' for one chance, not to assume
So I can say and do all the things I thought you knew
So far we're still so far
From where we know we should be
I'm searching for words
And you haven't heard
I thought you knew my heart was yours
And that we were so together
That we, would always be
I don't believe, you leavin' me is the answer
I'm not askin' you to let me rush back in and fail again
I'm askin' for one chance, not to assume
So I can say and do all the things I thought you knew
I thought you knew
Ohhhhhh god I
thought you knew!
