

# I Can't Fix You

## CG5

[Verse 1: Chi-Chi]

I've been trying for so long  
To sing you the right song  
To show you something different every day  
So, you'll hear what I have to say  
Like puzzle pieces  
And now, we're here at a standstill  
I wonder if you feel  
The kind of pain that rips your  
Insides out  
That's something I know all about  
Shocking, ain't it?

[Chorus: Chi-Chi & CG5]

Is it because I can't be her?  
Made your mistakes and make me hurt  
I can't fix you  
Is it because I can't be her?  
Made me awake and make me hurt  
I can't fix you

[Drop]

[Verse 2: Chi-Chi]

I can feel my heart breaking  
Mistakes I've been making  
I'm running out of patience to pretend  
This isn't how I'll let it end  
My feigning fading  
You've been mourning your loss here  
And that's grinding my gears  
How can a human lose their self-control?  
There's nothing left to make you whole  
I'm done explaining

[Chorus: Chi-Chi & CG5]

Is it because I can't be her?  
Made your mistakes and make me hurt  
I can't fix you  
Is it because I can't be her?  
Made me awake and make me hurt  
I can't fix you

[Drop: CG5]

I can't fi-

I can't fi-

[Bridge: Chi-Chi]

This is what happens when you  
Leave it to somebody else  
If you want it done right  
You should just do it yourself  
You oversaturate your  
World with nothing but machines  
You might make everyone happy  
But you're dead inside just like me

[Verse 3: Chi-Chi]

And now, we're here at a standstill  
I wonder if you feel  
The kind of pain that rips your insides out?  
That's something I know all about  
Shocking, ain't it?  
We have a lot more in common  
Than you would be calm with  
It's like we're the same person, me and you  
We both don't know we can do

[Chorus: Chi-Chi, CG5]

Is it because I can't be her?  
Made your mistakes and make me hurt  
I can't fix you (I can't fix you, I can't fix you!)  
Is it because I can't be her?  
Made me awake and make me hurt  
I can't fix you (I can't fix you, I can't fix you!)

[Drop: CG5]

I can't fix you!
