

Know Your Name (feat. Sage the Gemini)

Trevor Jackson

I'm not tyrina pressure you,
I'm just tryina get with you
Tell me what you're doing later
Maybe I can fall through
First, I gotta know YOUR NAME, YOUR NAME
First, I gotta know YOUR NAME, YOUR NAME That's bae, that's bae
She don't know it yet, but that's bae
Tryina get it cut like a first aid
Feeling on her booty like I'm thirsty
Her man couldn't see me on my worst day
Her girls hatin' on me but they on me
Pulling up like what you on for the night
I know we're young, but we grown for the nigh
I want you all in my system
You a good girl, but we can be bad baby
You know I'm just trying to get you
I just wanna be the best you've had
I'm not tyrina pressure you,
I'm just tryina get with you
Tell me what you're doing later
Maybe I can fall through
First, I gotta know YOUR NAME, YOUR NAME
First, I gotta know YOUR NAME, YOUR NAME I know we just meeting for the first time,
but baby don't be scared 'cause I don't bite
Not unless you tell me that the ish you like
Mami, tell me what you got up for tonight
I'm really thinking me and you should get together
We ain't got to force it, we can do whatever
I'm hoping that you ain't got a man, yeah
I'm tryina take this to another level
I want you all in my system
You a good girl, but we can be bad baby
You know I'm just trying to get you
I just wanna be the best you've had
I'm not tyrina pressure you,
I'm just tryina get with you
Tell me what you're doing later
Maybe I can fall through
First, I gotta know YOUR NAME, YOUR NAME
First, I gotta know YOUR NAME, YOUR NAME Man, you already know me
MC, yeah!
I feel like all that other stuff out the window,

Bring your fine overseas and buy everything in that window,
You been on my mind, yeah my mental
Type to drive the??? mental
Your ex is driving them rentals, yeah
Now why he treats you like a Honda?
Always driving you crazy, when really you're a Bentley
You don't take down payments
If wanting you is a crime, let me write down statements
Uh, let me get to know you
And have something to show for it,
I plant a seed for the future, do something to grow towards it
and all the girls that call, I'll let you forward them! First, I gotta know YOUR NAME, YOUR
NAME
First, I gotta know YOUR NAME, YOUR NAME
I just wanna know your name
Can you tell me?
I wanna show you a few things,
If you let me, but
First, I gotta know YOUR NAME, oh yeah
I gotta know YOUR NAME, ooh ooh
