

# Choose

## Why Don't We

We're supposed to be together, you ain't thinkin' straight  
I gotta place that we can go and ease your stress away  
A couple times I came around and you was M.I.A  
It's kinda hard to be in love when we're in different states  
Feel some type of way  
I ain't tryna play  
You got options, I got options  
But you're here with me  
Spend some time away  
Now I'm here to stay  
Life ain't stoppin', girl, what's poppin'?  
What's it gonna be? Choose, I'm just sayin', what you wanna do?  
Choose, I just dropped down in your city to  
Choose, let me put you onto something new  
Choose, ain't no tellin' what we get into  
I'm ju- I'm ju- I'm just sayin', choose  
I'm ju- I'm ju- I'm just sayin', choose So what, you stayin' or comin'?  
It shouldn't be a discussion  
All of these girls, we runnin' around  
And that's to be quite with our love  
Center stage, no bluffin'  
Interstate we buzzin'  
Touchdown, now takin' off  
So what, you all or nothing? Feel some type of way  
I ain't tryna play  
You got options, I got options  
But you're here with me  
Spend some time away  
Now I'm here to stay  
Life ain't stoppin', girl, what's poppin'?  
What's it gonna be?  
Choose, I'm just sayin', what you wanna do?  
Choose, I just dropped down in your city to  
Choose, let me put you onto something new  
Choose, ain't no tellin' what we get into I'm ju- I'm ju- I'm just sayin', choose  
I'm ju- I'm ju- I'm just sayin', choose 'Cause you got it, I want it, no time to waste  
I got what you want so come here to me  
'Cause you got it, I want it, no time to waste  
I got what you want so come here to me Choose, I'm just sayin', what you wanna do?  
Choose, I just dropped down in your city to  
Choose, let me put you onto something new  
Choose, ain't no tellin' what we get into I'm ju- I'm ju- I'm just sayin', choose  
I'm ju- I'm ju- I'm just sayin', choose I'm ju- I'm ju- I'm just sayin', choose

I'm ju- I'm ju- I'm just sayin', choose  
Choose, choose, choose, choose, choose, choose, choose, choose
