In that drop top know my brother see through

Smokin on gas this that ew

You was a jock thought u so cool

Future crystals I'm a baby jewel

I got the drip like I walked out the pool

Unknown who the fuck is you

Got Coogi on like a Huxtable

I be doing me need to play your role

Y'all boring as fuck need to add some sauce

Need my pockets thick Rick Ross

You still walking in Supreme

I just copped some Ksubis see why they pissed off

Couple hunnid on black jeans

Yeah we look so cute pulling up to the scene

Now they wanna kick it what you mean

Really use to leave me up on seen

Shit you smell that bro

Smelling like thraxx when i arrive

Yeah u washed up need a revive

Wanted them Rafs I got a few

Pool stick she come on cue

Can't use my bic to light yo boof

Spent all day inside the booth

You ain't on shit yeah that's old news

She wanna fuck ain't in the mood

BB on I look like Elvis

Chasing green I feel like a Celtic

Stupid brain ya she need a helmet

Rocking Stone Island mixed with the Helmut

Posted in the cut yeah the crevis

Geeked as fuck hit the 7 11

Hold up wait ya give me a second

They be fake as fuck every once in awhile might check in
