

# You Go Down Smooth

## Lake Street Dive

Would it be true to say that I ordered you  
Or is it you that ordered me?  
I could say you are the only one I see  
But I can't stop at two or three...And I am afraid to need you so  
And I am too sober not to know  
That you may be my problem, not my love...Would I be lying if I said you were too sweet  
Though I'm quite sure you've got a bite  
I could say that you were just a special treat  
Though we both know that's not right...  
And I am afraid to need you so  
And I am too sober not to know  
That you may be my problem, not my love...  
Cause you go down smooth...Would it be true to say you go to my head  
Or is that sentiment too frank  
I could say you make it sweet to go to bed  
But then it's you that breaks the bank...  
And I am afraid to need you so  
And I am too sober not to know  
That you may be my problem, not my love...  
Cause you go down smooth...
