

# Bronco (feat. Jelly Roll)

Demun Jones

(Drop it real low then buck it like a Bronco)

(Buck it like a, buck it like a, buck it like a Bronco)

You got me thinking bout knocking them boots off

Hotter than a 12 gauge pump when it shoots off

Some never seen a country girl moving it like this

I think I saw a girl in a movie just like this

Anything she want man she knows how to get it

And if you look in her eyes no you want forget it

A little bit of brown mixed with some green

And a camouflage pattern you ain't never seen

Yep, I'm bout to try my luck

So I mosey right over and I said "What's up?

You sure looking lovely tonight", and she smiled

And said, "My name's Dixie and I love to get wild"

Shake what you got, let me see a little more

From the ceiling to the floor, let me see what you working with

Drop it real low then buck it like a Bronco

Buck it like a, buck, buck, buck it like a Bronco

Shake what you got, let me see a little more

From the ceiling to the floor, let me see what you working with

Drop it real low then buck it like a Bronco

Buck it like a, buck, buck, buck it like a Bronco

See you doing your thing, well baby girl go ahead

Southern belle and I swear she thicker than corn bread

Walking with my chest out hoping that she notice me

Man she's so sweet that she gotta be a Georgia peach

Flip flop pretty feet, shots of the whiskey

Hope I don't overheat because she hotter than fish grease

Says shes got a couple of friends that she can bring along

Now I need a wingman, grab the phone, hit Demun Jones

DJ put the needle on, something we can sing along

Something in the air is telling me that I won't leave alone

Baby, going crazy and I'm faded

Dirty dancing like Patrick Swayze, amazing

Now we riding round bumping outlaw music

100 miles an hour like the outlaws do it

You know we can go anywhere that you wanna roll

And then you saddle up, welcome to the rodeo

Shake what you got, let me see a little more

From the ceiling to the floor, let me see what you working with

Drop it real low then buck it like a Bronco

Buck it like a, buck, buck, buck it like a Bronco

Shake what you got, let me see a little more  
From the ceiling to the floor, let me see what you working with  
Drop it real low then buck it like a Bronco  
Buck it like a, buck, buck, buck it like a Bronco  
Here we go, here we go, she dancing on the bar  
Pouring everybody shots while she drinking from a jar  
Dukes are so tight, don't know how she fits in  
I can't wait get below the Mason–Dixon  
Shes looking for more than a 8 second ride  
Bucking like a Bronco with her hand in the sky  
And she could tame a Brahma bull  
The way she stays on it is remarkable  
You can see the boys' and the girls' jaws drop  
The way she move her body might make your heart stop, uh  
Pacemaking, shaking under the lights  
She got moves to bring it back to life, when she starts to...

Shake what you got, let me see a little more  
From the ceiling to the floor, let me see what you working with  
Drop it real low then buck it like a Bronco  
Buck it like a, buck, buck, buck it like a Bronco  
Shake what you got, let me see a little more  
From the ceiling to the floor, let me see what you working with  
Drop it real low then buck it like a Bronco

Buck it like a, buck, buck, buck it like a Bronco

Oh no, she drop it real low

On a tailgate of a Silverado

She must be a pro, I was like, "Whoa!"

She threw me the keys and whispered, "Let's go"

Buck it like a, buck it like a, buck it like a Bronco

Shake what you got, let me see a little more

From the ceiling to the floor, let me see what you working with

Drop it real low then buck it like a Bronco

Buck it like a, buck, buck, buck it like a Bronco

Shake what you got, let me see a little more

From the ceiling to the floor, let me see what you working with

Drop it real low then buck it like a Bronco

Buck it like a, buck, buck, buck it like a Bronco

Let me see a little more

Let me see what you're working with

And then buck it like a Bronco

Buck it like a, buck, buck, buck it like a Bronco

Let me see a little more

Let me see what your working with yeah

And then buck it like a Bronco

Buck it like a, buck, buck, buck it like a Bronco
