

# Back & Forth

**MK, Jonas Blue & Becky Hill**

[Chorus]

It's the same old story in this tug of war  
(We go back and forth, we go back and forth)

But it ain't good for me

What we do this for?

We go back and forth walk through this road (oh, woah)

We go back and forth

We go back and forth (oh, woah)

We go back and forth

Walk through this, no

[Hook]

All, all we, all

All, always never tell her

All, all we, all

All, always never tell her

All, all we, all

All, always never tell her

All, all we, all

All, always never tell her[Verse 1]

You're only nice when you wanna be

You always leave me wondering, wondering

It's not a simple last, you and me

Can never tell if I'm in love with him, lost with him

[Post-Chorus]

Tryna find better in, but inbetween it's all

It's all or nothing

You pull me back when you feel me slip away

This evening with your loving[Chorus]

It's the same old story in this tug of war

(We go back and forth, we go back and forth)

But it ain't good for me

What we do this for?

We go back and forth walk through this road (oh, woah)

We go back and forth

We go back and forth (oh, woah)

We go back and forth

We go back and forth

Walk through this, no[Hook]

All, all we, all

All, always never tell her

All, all we, all

All, always never tell her

All, all we, all  
All, always never tell her  
All, all we, all  
All, always never tell her[Verse 2]  
Being with you, there's no reasoning  
When we're fighting all the time, all the time  
Tryna speak, you're not listening  
Close tears with open eyes, broken wines[Post-Chorus]  
Tryna find better in, but inbetween it's all  
It's all or nothing  
You pull me back when you feel me slip away  
This evening with your loving[Chorus]  
It's the same old story in this tug of war  
(We go back and forth, we go back and forth)  
But it ain't good for me  
What we do this for?  
We go back and forth walk through this road (oh, woah)  
We go back and forth  
We go back and forth (oh, woah)  
We go back and forth  
We go back and forth  
Walk through this, no[Hook]  
All, all we, all  
All, always never tell her  
All, all we, all  
All, always never tell her  
All, all we, all  
All, always never tell her  
All, all we, all  
All, always never tell her
