

# Still Life

## The Horrors

Under a sky, no one sees,  
Waiting, watching it happening.  
Don't hurry give it time,  
Things are the way they have to be.  
Slow down, give it time,  
Still life, you know I'm listening.  
The moment that you want is coming if you give it time  
When you wake up, when you wake up,  
You will find me  
When you wake up, when you wake up,  
You will find me  
Under a sky, no one else sees,  
I'm here watching it's happening  
The sky clear, the sun hits  
And I am here Waiting, it's happening.  
The moment that you want is coming if you give it time  
When you wake up, when you wake up,  
You will find me  
When you wake up, when you wake up,  
You will find me  
When you wake up, when you wake up,  
You will find me  
When you wake up, when you wake up,  
You will find me
