## The Pussycat Dolls

[Verse 1]

When I get messed up at the party  
I make a scene and get upset  
But when I wake up in the morning  
You bring me breakfast in bed and act like there's nothin' to forget

[Pre-Chorus]

Maybe I should count my blessings  
That you're just that type  
So call me masochistic  
But sometimes, I want to fight

[Chorus]

Every time I leave, you pull me closer  
I hang up the phone, you call me back  
Why don't you mess me 'round like you're supposed to?  
You're turning me cruel 'cause I'm just wanting you to react

[Post-Chorus]

Hey, hey, hey  
Hey, hey, hey, hey  
Hey, hey, hey  
You're turning me cruel 'cause I'm just wanting you to react

[Verse 2]

If I say jump, you just say "How high?"  
I think you might love me to death  
The way you do me, boy, you're too nice  
You gas me up when I wanna be losin' my breath

[Pre-Chorus]

Maybe I should count my blessings  
That you're just that type  
So call me masochistic  
But sometimes, I want to fight (Rrah)

[Chorus]

Every time I leave, you pull me closer  
I hang up the phone, you call me back  
Why don't you mess me 'round like you're supposed to?

You're turning me cruel 'cause I'm just wanting you to react  
Looking for a little confrontation  
Now I know the nice guys turn me bad  
The less you do, the more it makes me crazy (Crazy)  
You're turning me cruel 'cause I'm just wanting you to react

[Post-Chorus]

Hey, hey, hey

Hey, hey, hey, hey

Hey, hey, hey

You're turning me cruel 'cause I'm just wanting you to react

[Chorus]

Every time?? I leave, you pull me closer (Pull me closer)

I hang up the phone, you call me back

Why don't you mess me 'round like you're supposed to? (Mess me 'round)

You're turning me cruel 'cause I'm just wanting you to react

Looking for a little confrontation

Now I know the nice guys turn me bad

The less you do the more it makes me crazy

You're turning me cruel 'cause I'm just wanting you to react

[Post-Chorus]

Hey, hey, hey

Hey, hey, hey, hey

Hey, hey, hey

You're turning me cruel 'cause I'm just wanting you to react
