Before I Fall

[Bob Moses](#)

I broke down
I wish that I could take it back, start again
'Cause I found never got the chance to say
What I meantSo now, I only get to blame myself for everything
Could I be so wrong, wrong then you gone
I just can't seem to go on
I'm gonna need someone strong
To catch me before I fall
Now I do everytime you go far wayShame how I push you off when I just want you to stay
See now I was only trying to hide from the pain
Somehow I wish that I could get you back
Here again
So now, I only get to blame myself for everything
Could I be so wrong, wrong, then you gone
I just can't seem to go on
I'm gonna need someone strong
To catch me before I fall
