

# More Than Words

## Culture Code & RØRY

I write a message, shouldn't send it, should delete it yeah  
'Cause friends don't text at 2 AM  
You got me overstimulated, overthinking I've been drinking and I can't pretend What you do to  
me, what you do  
You're seeing right through me, seeing through  
I write a message, hundred times I've read it  
Maybe I'll regret but I'm pressing send So what if I use my body  
And I'll give you more than words  
Show me how much you want me  
We both know love can hurt but  
We text in the middle of the night  
Tryna be good but we wanna be right here  
What if I use my body  
And I'll give you more than words  
What if I  
What if I use my body  
And I'll give you more than words I got these feelings and they're messing with me and my mind  
Am I reading into this?  
Yeah I got whiskey on my lips, go on and kiss me  
And I swear you know I'm worth the risk What you do to me, what you do  
You're seeing right through me, seeing through  
I got these feelings and they're messing with me  
But I like it, yeah I like it  
So what if I use my body  
And I'll give you more than words  
Show me how much you want me  
We both know love can hurt but  
We text in the middle of the night  
Tryna be good but we wanna be right here  
What if I use my body  
And I'll give you more than words What if I  
What if I use my body  
And I'll give you more than words
