

# Alien

## Bush

The satellite comes and goes  
We give each other all we know  
In silence we still talk  
By the light of the stereo we waltz  
And will you rain down  
In your cinematic love truck  
I'm gonna hold you like  
Nothing's gonna stop us And she comes to take me away  
She's all that I needed  
I don't breathe another lover  
Flicker on the TV screen  
Everything's more than it seems  
The mighty backward fall  
We stare at the light on the wall  
And I swear to this  
She felt like velvet  
Second blonde child  
Like velvet, velvet And she comes to take me away  
She's all that I needed  
I don't breathe another lover  
I'm an alien  
You're an alien  
It's a beautiful rain, beautiful rain  
I'm an alien  
You're an alien  
It's a beautiful rain, beautiful rain  
I'm an alien  
You're an alien  
It's a beautiful rain, beautiful rain, beautiful rain  
Beautiful  
Beautiful When she come around again  
When she come around again  
Around again  
Around again  
Around again I'm an alien  
You're an alien  
It's a beautiful rain, beautiful rain  
I'm an alien  
You're an alien Beautiful rain, beautiful rain, beautiful rain  
Alien, alien  
Alien, alien, alien, alien  
Alien, alien, alien, alien

Alien, alien, alien, alien
