

# Babybird

Chloe x Halle

You just flew out of your nest  
(You just flew out of your nest)  
Starting a brand new quest  
(Starting a brand new quest)  
But the world is trying to test  
(But the world is trying to test)  
And you feel alone and try to mold into the rest  
(And you feel alone tryin' to mold into the rest) Babybird, grow some feathers  
Yeah yeah  
Babybird, you can do better  
Mommy's not here no more  
(Mommy's not here no more)  
You're the only mouth you gotta feed for  
(Feed for)  
So sharpen up those claws  
(Sharpen up those claws)  
You gotta find your own voice  
(You gotta find your own)  
Babybird, grow some feathers  
Why fly with the chickens when you can fly with the eagles soaring?  
And the eagles big but now why fly with the ground  
When you can fly with clouds?  
(Du-du-du-du-du-du)  
Why fly with the chickens when you can fly with the eagles soaring?  
And the eagles big but now why fly with the ground  
When you can fly with clouds? Babybird (Babybird), you can do better  
Babybird
