

Blind

Hurts

Since the day I left you
I hear your voice in every sound
Since the day I left you
I see your face in every crowd
It won't go away
But every time I feel you near
I close my eyes and turn to stone
'Cause now the only thing I fear
Is seeing you better off alone
Cut out my eyes
And leave me blind
Cut out my eyes
And leave me blind With the weight of the world upon me
I can't hold my head up high
So if you see me on the streets
Turn away or walk on by
'Cause after the beauty we've destroyed
I'm cascading through the void
I know in time my heart will mend
I don't care if I never see again Cut out my eyes
And leave me blind
Cut out my eyes
And leave me blind
Girl, I told you
After all we've been through
I don't wanna be by myself!
Girl, I told you that it would tear me in two
If I see you with someone else
Cut out my eyes
And leave me blind
Cut out my eyes
and leave me blind
