

Save Me

Marc Broussard

You know the summer time is gone now
All the leaves are on the ground
Everything is turnin', stuck in a rut You know another year is over
Add another candle to the cake
I ain't getting any younger no, no, no
Stuck in a rut and only you could get me out of this place Save me, give me what I need
I know you can break these chains
And set me free Save me, give me what I need
I know you can break these chains
And set me free, set me free You know the wintertime is here now
And my poor heart is freezin' up
Keep, keep that fire burnin', baby
Stuck in a rut and only you can melt the pain away
Save me, give me what I need
I know you can break these chains
And set me free Save me, give me what I need
I know you can break these chains
And set me free Wishin' you were here 'cause I can't hold on
Calm me down when I lie awake all night long Save me, give me what I need
I know you can break these chains
And set me free Save me, give me what I need
I know you can break these chains
And set me free Save me, give me what I need
I know you can break these chains
And set me free, set me free
Save me, help me please
I know you can break these chains
And set me free, set me free, set me free You know the summer time is gone now
And my poor heart is freezin' up
