

Let the Moonshine

Luke Combs

[Verse 1]

It's been a long night with a heavy load
And now my high beams are shinin' on my babies road
Gonna pick up some clay on the tread of these tires
Have ourselves a hell of a night
Look up in that Carolina sky

[Chorus]

Let that moonshine, all night, take your breath away
Like an old sweet song daddy used to play
And it takes me back to a simpler place and time
When we used to kick back
And let the moonshine
So let the moonshine

[Verse 2]

It's been a long time since we felt that creek
Runnin' cold and clear over our bare feet
Baby, you don't know that this right here
Is the same water my ol' man used in his still
I still remember what he used to say

[Chorus]

Let that moonshine, all night, take your breath away
Like an old sweet song daddy used to play
And it takes me back to a simpler place and time
When we used to kick back
And let the moonshine
So let the moonshine

[Bridge]

It burns me up and lights a fire in my soul
We'll get you a sip and let the whiskey take control

[Chorus]

Let that moonshine, all night, take your breath away
Like an old sweet song daddy used to play
And it takes me back to a simpler place and time
When we used to kick back
And let the moonshine
Just let the moonshine
And let the moonshine
