

Ig-88's '57 Chevy

MC Chris

I'm a GO-bot that's gone nuts it's kinda scary
Job's a cover I'm really a revolutionary
Bounty hunter gunner don't bleed white blood
See me have a feeling cause you're gonna get fucked up
2-1B homie you can't afford this
Magnaguard with a little rigor mortis
No tow cable, no cloaking device
Just reliable recovery for a reasonable price
I got four copies you can call'em clones
Look how we shine you can call it chrome
Import AI one mind to four chassis
The fifth declined, it's crazy if you ask me
Take a back seat in my Chevrolet
Let me tell you bout my plan to make a better day
Let me tell you who I am and how I paved the way
Made it cool for H.A.L. to say "I can't help you Dave"

Why you gotta player hate on IG-80-80-80?
Why you gotta player hate on IG-88? Whooooaaa

Go back to Galactica, you protocol puke
You're like a slave I'm gettin' paid now pass me the loot, w00t
I'm not impressed with your inquisitive quest
Leave you astro make a gastrointestinal mess
I'm the best of the west go check the pulse cannon
Born 15 years before the battle of Yavin
I'm a big boy, got big boy guns
I prefer dis-integrations, fuck shit on stun
So hardcore I'm like a droid Darfur
Slice your head right off like you're a red R4
You work on star tours tell me you aren't bored
Time to get on board the great droid war (roger, roger)
Make a few factories, implant my mind
In every single droid comin' down that line
Waitin' for the day order finally comes
Eradicate all biological scum

Why you gotta player hate on IG-80-80-80?
Why you gotta player hate on IG-88? Whooooaaa

Why you gotta player hate on IG-80-80-80?
Why you gotta player hate on IG-88? Whooooaaa
Why you gotta player hate on IG-80-80-80?
Why you gotta player hate on IG-88? Whooooaaa
