

I Know

Monica

Trying to get through closer to you the shadow of doubt has made it so hard to but
everyday you tear away a piece of the wall built around me maybe i...

i...

i... know

Slowly I'm believing what I'm seeing
Suddenly I'm trusting what I'm feeling this
time this love ain't leaving me cold i...

I...

I... know

You quiet the sound of a heart that's still unsure
You hold my hand when I'm ready to run out that door

I...

I...

I...

I... know

when I tell you I love you I mean it
for the first times I'm not afraid of needing you so
No matter, no matter what I'm not leaving you nooo

Cuz I... know

I... know

I... know... I know

So when I tell you I love you know I mean every word
When you tell me that you love me
It's the sweetest truth that I've ever heard

And I know

That your loving me no doubt

No... And I know

I know

Finally got thru

Closer to you
