

# Rum

## Brothers Osborne

[Verse 1]

Starin' at the prettiest part of this powder keg world  
Sittin' with the finest example of a beautiful girl  
If we hadn't hit the brakes, we'd have no idea  
Paradise was hiding right here

[Chorus]

Dipping our toes in the water  
I don't care if it gets any hotter  
It's you, me rememberin' how to have fun  
Let's put our hearts together  
Two parts love and a pinch of good weather  
And top it all off with the sun and mix it with rum  
Mmm mmm mm mm

[Verse 2]

Came out here to do a whole lot of nothing and we're doing pretty good I think  
The only one thing we need to worry about is filling up when the ice cubes clink

[Chorus]

Dipping our toes in the water  
I don't care if it gets any hotter  
It's you, me remembering how to have fun  
Let's put our hearts together  
Two parts love and a pinch of good weather  
And top it all off with the sun and mix it with rum  
Mmm mmm mm mm  
Mix it with rum mmm mmm mm mm

[Bridge]

Lucky folks go to the ocean  
The lakes for the land-locked ones  
We got a tarp and a truck bed, a kiddie pool, a slip and sled, let that garden hose run

[Chorus]

Dipping our toes in the water  
I don't care if it gets any hotter  
It's you and me remembering how to have fun  
Let's put our hearts together  
Two parts love and a pinch of good weather

And top it all off with the sun and mix it with rum  
Mmm mmm mm mm  
Mix it with rum mmm mmm mm mm  
Mix it with rum mmm mmm mm mm
