

All of the Stars (Soundtrack Version)

Ed Sheeran

It's just another night
And I'm staring at the moon
I saw a shooting star
And thought of you
I sang a lullaby
By the waterside and knew
If you were here
I'd sing to you You're on the other side
As the skyline splits in two
I'm miles away from seeing you I can see the stars
From America?
I wonder, do you see them, too?
So open your eyes and see
The way our horizons meet
And all of the lights will lead
Into the night with me
And I know these scars will bleed
But both of our hearts believe
All of these stars will guide us home I can hear your heart
On the radio beat
They're playing 'Chasing Cars'
And I thought of us
Back to the time
You were lying next to me
I looked across and fell in love So I took your hand
Back through lamplit streets and knew
Everything led back to you
So can you see the stars
Over Amsterdam?
You're the song my heart is beating to So open your eyes and see
The way our horizons meet
And all of the lights will lead
Into the night with me
And I know these scars will bleed
But both of our hearts believe
All of these stars will guide us home And oh
And oh
And oh I can see the stars
From America
