

# There It Is

## Ginuwine

Said I work my fingers down to the bone  
I put it down from 9 to 5 so you should know  
(You wanna know what else?)  
And I bust my ass so you can live good  
Yes I do, girl  
Now all I want you to do is what you should  
There it is See there it is (there it is baby)  
That ungrateful shit (that ungrateful shit)  
There you go again, complanin'  
What your aim is  
I dont know but I'm...  
I'm not doing this shit for nothing  
I pay the car note, light bill, house note (house note)  
What you think, this shit's for nothing?(what you think this is)  
You're not workin'  
So what more you want? Listen...  
I do my best to give you what you need  
It seems that  
The harder that I work, the less you see  
Ooh baby (ooh baby)  
Who wouldn't want the life you lead?  
Just think about it  
Living the good life, yeah  
Practically scot-free, oh oh oh oh yeah  
See there it is (there it is, there it is)  
That ungrateful shit (you see what I'm talkin' 'bout)  
There you again, bein' worse, um yeah  
Like you earned somethin' round here  
But let's be clear I'm not doing this shit for nothing  
I pay the car note, light bill, house note  
What you think, this shit's for nothing?  
You're not workin'  
So what more you want? You got two seconds, pack your shit and get on outta here  
Gotta go, gotta go baby  
You don't appreciate what a man like me is about  
No you don't  
And you know I'm workin' 9 to 5  
Workin' hard everyday baby (listen)  
Even put my name (put my name)  
Even served my day (served my day)  
Down for some overtime, yeah See there you go (there you go, there you go)  
Tryin' to run the show Oh, you don't pay my car note

Pay my light bill  
Pay my house note I'm not doing this shit for nothing  
I pay the car note, light bill, house note  
What you think, this shit's for nothing?  
You're not workin'  
So what more you want?
