Oso

[Chorus: MarMar Oso]

And he only leave you lonely (Lonely) so just should be done with him (Ohh)

With him, with him, with him (Oh-oh)

See, you perfecting my perception, tryna see what you on

Got everything that I want, girl, I can't leave you alone

I'm on your team, you my Queen, all you need is your throne

Love it how you keep me focused, got me all in my zone

Ayy, when you gone be mine already?

Tell 'em that it's over, or not, I will, I'm that petty (Hahaha)

When I see you, I swear I lose it all (Lose it all)
Must be slipping if I'm tripping 'cause you make fall in love (In love)

There's no way I'd rather have it
Shawty, you so dope, something like a drug, I gotta have it

[Verse 2: Luh Kel]

Got me writing love songs 'til the sun coming up
I told you that I gave you all my heart but that ain't enough
I'm tryna sing about you with the engineer auxed in rough
Girl, leave your ex nigga, 'cause that nigga scrub
Writing all these songs, write 'em just like love letters
Girl, when you around, you making everything feel better
And, girl, when you right next to me, my heart feel like a feather
Heart on ice, it's getting cold, but baby, you my sweater
Girl, when you around, I feel like I'm never alone

And, girl, when you around, I fill the sky up, super gone

Brodie ask if I will fall in love, I said "I don't"

I know you make me feel right even if I'm in the wrong

[Chorus: MarMar Oso]

She got me singing love songs from the night 'til the morning (Love)

She said that we connected just off the month I was born (Uh-huh)

And he only leave you lonely (Lonely) so just should be done with him (Ohh)

With him, with him, with him (Oh-oh)
