

Burnin' the Roadhouse Down

Steve Wariner & Garth Brooks

Steve Wariner & Garth Brooks The crowd is getting restless

It's smoky loud and hot
The band is heatin' up and
Giving everything they've got
Somebody check the exits
In case a fire breaks out
We're packed in tight
It's Saturday night
And we're burnin' the roadhouse down

Chorus:

We're burning' it down
We're burnin' the roadhouse down
The band is in full swing
And man there ain't no stoppin' now
There'll be nothin' left but ashes
When Sunday rolls around
But that's all right
It's Saturday night

And we're burnin' the roadhouse down Instrumental It's a mob out on the dance floor

And the pressure's getting higher
One spark from that fiddle bow
Could set this place on fire
It's so cool to be here
In the hottest place in town
Feels so right
It's Saturday night
And we're burnin' the roadhouse down

Chorus:

We're burning' it down
We're burnin' the roadhouse down
The band is in full swing
And man there ain't no stoppin' now
There'll be nothin' left but ashes
When Sunday rolls around
But that's all right
It's Saturday night

And we're burnin' the roadhouse down They'll be sifting through the ashes

When Sunday rolls around
But that's all right
It's Saturday night
And we're burnin' the roadhouse down...
