

# Aurora

## Foo Fighters

You believe there's something else  
to relieve your emptiness  
and you dream about yourself  
and you bleed and breathe the air  
and it's on and on  
i just kinda died for you  
you just kinda stared at me  
we will always have the chance  
we can do this one more time  
hell yeah, i remember aurora  
all this time  
take me now, we can spin the sun around  
and the stars will all come out  
then we'll turn and come back down  
you believe there's somewhere else  
where it's easier than this  
and you see outside yourself  
and you buy the hole you'll fill  
and it's on and on  
on and on aurora wait for everyone  
wait till the last one's done
