

# One Life

Mike Perry

We fell outta love  
We thought that we lost  
But now I see there's nothing better than us Than us You got me chasin' memories, just so I can  
feel ya  
You got me wishin' nothing changed, oh  
I think I need ya, I think I need ya right now All we ever get is one life  
So I think that we better spend it right  
I don't wanna waste one more afternoon  
Being alone and not here with you All we ever get is one life  
So I think that we better spend it right  
'Cause we got way too much time to lose  
So let me know if you want me too  
So let me know if you want me too So let me know if you want me too We made a mistake  
Lettin' us slip away  
But let's forget everything that happened, my love  
My love You got me chasin' memories, just so I can feel ya  
You got me wishin' nothing changed, oh  
I think I need ya, I think I need ya right now All we ever get is one life  
So I think that we better spend it right  
I don't wanna waste one more afternoon  
Being alone and not here with you All we ever get is one life  
So I think that we better spend it right  
'Cause we got way too much time to lose  
So let me know if you want me too  
So let me know if you want me too So let me know if you want me too We fell outta love  
We thought that we lost  
But now I see there's nothing better than us Than us You got me chasin' memories, just so I can  
feel ya  
You got me wishin' nothing changed, oh  
I think I need ya, I think I need ya right now All we ever get is one life  
So I think that we better spend it right  
I don't wanna waste one more afternoon  
Being alone and not here with you All we ever get is one life  
So I think that we better spend it right  
'Cause we got way too much time to lose  
So let me know if you want me too So let me know if you want me too So let me know if you  
want me too We made a mistake  
Lettin' us slip away  
But let's forget everything that happened, my love  
My love You got me chasin' memories, just so I can feel ya  
You got me wishin' nothing changed, oh  
I think I need ya, I think I need ya right now All we ever get is one life

So I think that we better spend it right  
I don't wanna waste one more afternoon  
Being alone and not here with you All we ever get is one life  
So I think that we better spend it right  
'Cause we got way too much time to lose  
So let me know if you want me too So let me know if you want me too  
So let me know if you  
want me too
