

# Way Back When

## Kodamine

We never had that much to do  
So we just lay around in someone's house  
Someday I'll have it all again  
Just like way back when Back then we'd sleep until the afternoon  
And we'd just get up and go outside  
Open a window, let the breeze blow in,  
Forget everything Yea, those will be the days that I will be missing  
When I'm old and when I'm gray and when I stop working  
I hope that I can say  
When all my days are done  
We were just having fun  
Well we'd go drinking in the afternoon  
Lie out on the grass and fall asleep  
Oh will I ever see that girl again?  
The girl from way back when Yea, we used to share a cigarette  
And throw together everything we had  
And then go driving in my parents' car  
And never strayed too far Yea, those will be the days that I will be missing  
When I'm old and when I'm gray and when I stop working  
I hope that I can say  
When all my days are done  
That I had my fun Those will be the days I had my fun Yea, in time can move so fast  
Some things are made to last  
So here's to you, my dear old friend  
From way back when  
Yea, those will be the days that I will be missing  
When I'm old and when I'm gray and when I stop working  
I hope that I can say  
When all my days are done  
That I had my fun
