

Love Like Ghosts

Lord Huron

Yes I know that love is like ghosts
Oh, she was sinning
But everybody talks
Spirit follow to where I go
I sin all day and they haunt me in the night
Oh I sin all day and they haunt me in the night Yes I know that love is like ghosts
Oh, and what ain't living can never really die
You don't want me baby please don't lie
Oh but if you're leaving, I gotta know why
I said if you're leaving, I gotta know why
Oh I sing all day and I love you through the night Yes I know that love is like ghosts
Oh when the moonlight fades
It shows you what's real
There ain't a language for the things I feel
And if I can't have you then no one ever will
Oh, if I can't have you then no one ever will
I don't feel it till it hurts sometimes
Oh go on baby, hurt me tonight
Our own eyes will be an endless sun
Baby in my eyes you do know wrong
I don't feel it till it hurts sometimes
Come on baby, hurt me tonight
Hallow spirits oh they know I saw
They see no ghosts and leave me on
Oh I sing all day and I love you through the night
Oh I sing all day and I love you through the night
Oh I sing all day and I love you through the night
Oh I sing all day and I love you through the night
