

# Hours

**FKA twigs**

I could kiss you for hours  
Who'd have thought  
I'd be in your mouth  
Loud and clearHarder  
Do you feel it with me?  
Harder  
How am I certain to fit  
All of your needs  
Master of all of your needs  
I could kiss you for hours  
And not miss a thing  
Read my lips now  
I could kiss you for hours  
The feeling you bring  
Shaped deep in (oh)  
I could kiss you for hoursHow would you like it if my lips touched yours  
And they stayed close baby 'til the stars fade out  
How would you like it if I sip before I bite  
But it wasn't too hard so it felt alright  
How would you like it if I held you in my arms  
Round of your bed be a substitute for [?]  
[?] heaven under the ground  
Sweetest thing a girl like me likes  
Found  
(I could kiss you for hours)  
In the higher world of your own  
A lone wolf [?]  
GrowI could kiss you for hours
