

# One Day

## LMFAO

[Verse 1]

Sipping on this drink, got some time to think  
About where I was, and where am I'm at today  
I'm getting everything I ask for  
Flying the world, filling up my passport  
I'm in the zone, martini's strong, my time is short, but my money long  
I'm getting everything I ask for, In the club, always keep my glass full

[Hook]

Money in the bank, my car brand new  
I got everything I want but you  
I might get you one day  
I might get you one day  
House on the hill, Hollywood view  
I got everything I want but you  
I might get you one day  
I might get you one day

[Verse 2]

Hey, everybody came to play  
I love it when the DJ plays all my favorite songs  
And everybody sings along  
I see the pretty babies at the pool, but all I can think about is you

[Hook]

Money in the bank, my car brand new  
I got everything I want but you  
I might get you one day  
I might get you one day  
House on the hill, Hollywood view  
I got everything I want but you  
I might get you one day  
I might get you one day

[Outro]

When I get you girl, you gonna be so in love with me  
Every day, we're gonna play, what's your fantasy?  
Every night I think of you in every way  
And when I get you, I'mma celebrate  
Hey, I'mma celebrate

I'mma celebrate  
I'm gonna celebrate  
Cause I'm gonna get you one day
